NVMT 3 (4x50)

Sku # 24027

Our new 4x50 model has impressive magnification and light gathering capability. It is great for night vision photography, game spotting and surveillance. This affordable, compact, lightweight monocular provides comfortable viewing and versatility for numerous activities. It's perfect for the outdoor enthusiast to take from a sporting event to a hunt. The Yukon's exclusive PULSE™ system Infrared (IR) Illuminator provides infrared lighting for an enhanced image, while staying invisible to the human eye and animal's eyes. The PULSE™ system utilizes quick IR energy bursts that penetrate further to increase distance, visibility and image quality, without significant battery drainage or untimely IR burnout.

Overview

Body Description

The ergonomically designed, durable, RUBBER ARMOR™ body fits comfortably in the palm of your hand and can fit in your pocket for those quick escapes. It's perfect for travel and prolonged use.

Optics / Performance

The NVMT's newly developed lenses maximize light amplification through improved frequency/contrast characteristics.

Features and Benefits

- Built-in Infrared Illuminator featuring Yukon's PULSE™ System
- Lightweight & Compact
- Durable, RUBBER ARMOR™ Body
- Open Field or Long Distance Observation
- Interchangeable lenses
- Photo/Video Adaptable
- Water Resistant
